Goran Malic, photographer, chronicler and historian of photography. Writer of essays and prose articles (more about the literature on serbian language. Born in Belgrade, Serbia, in 1947. Majored in Sociology and History of Arts at the Faculty of Philosophy in Belgrade. Freelance artist from 1979. Excellent Serbian artist from 1996. His photographs were exhibited several times independently. He is the author of a number of custodial projects describing periods and photographers that belong to the history of photography in Serbia in XIX and XX century.

Tomasz Okoniewski – a historian, a journalist, a great enthusiast and promoter of photography which is his passion. He has been interested in the art of image for many years and his hobby has been treated more seriously since 2007. His favourite subject is the landscape of neighbourhood and the reportage of daily life. In his opinion, photographing the landscape teaches him how to see the world in a different way, to look at things previously unnoticed. Painting views of morning light is one thing, but the most important subject will be the man and his /her emotions.

His works have won prizes and awards in many national and international photographic competitions.

Born in a quaint town of Sirsi amidst the beautiful Western Ghats in Karnataka, India and being self employed in the field of Electronics in Bengaluru, Digwas Bellemane's journey in Photography started almost 10 years ago. He has come a long way since then and evolved as a Photo Artist, excelling in the space of Fine Art, Travel Photography. He has participated in a huge number of worldwide photographic exhibitions, affiliated with PSA, FIAP, MoL and FIP. His works are highly acclaimed and have won recognition in the form of Acceptances, Awards and exhibitions in various shows across cities.

I was born in 1956, and attracted to photography I started taking my first shots in the early 80's with a friend's camera. Initially as a self-taught then I learned of a photography course organized by the Photo Club of my country, I decide to sign up. During the course, in addition to the notions of photographic technique, I learn of the existence of the Italian Federation of Photographic Associations (FIAF). At the end of the course I decide to join both the FIAF and the Photographic Club (Photographic Club "Research and Proposal Dolzago) where I currently hold the position of Vice President. Here I come into contact with the world of photographic competitions. I begin to sign up for some competitions, initially with mediocre results and then improve over the years. The first recognitions arrive in the early 90s at a national level and then also at an international level. I like to photograph all kinds of photography, but sport is the section that fascinates me the most.
